

April is over. And we've decided not to connect these colouring pages with the theme of spring, seeds and seedlings, as it's been planned before, but to dedicate it to English lessons in Helen Doron English learning center... and to sweet things during breaks ;)

Break time.

Draw something that will help you to have a healthy (or, not so healthy) bite.

Draw donuts/ cookies/ biscuits or, some other healthy and delicious food on these plates.

History.

Draw some unknown creature in frame. You can use the rectangles on the side to think of an unusual story that could happen to it. Where could it get and what could it do there? And then, tell your group mates your adventure story.

Edible – not edible.

Circle all edible things and underline things you cannot eat.

Add pictures of whatever you like to eat yourself. Name all the objects in English.

Halves.

Draw the other half of a picture.

Portraits.

Draw faces of children that you learn with, and if you can write, put their names under.
Draw few more portraits yourself.

Favourite toys.

Do you take your favourite toy with you to the Learning center, or you leave it at home? Draw the one.
Do your group mates bring their favourite toys? Draw them, too!

Who is there in the Learning center?
